Lecture Review

- Please select one lecture to review and critique. The review should focus on the content of the lecture, the completeness of the talk, and its appropriateness to the class. You may want to consider critiquing the lecture along one of the following lines:
 - The technology basis of the material presented (e.g. Homolgy)
 - The completeness of the business strategy and competitive threats (e.g. Demand Response)
 - The need for an ecosystem to support the central idea (e.g. IoT)
 - The legal aspects of the idea presented (e.g. who owns the data?)
- The report should not exceed one page. Latex or Word.
- Due June 7, 2013
- Attendance and this one page report will jointly determine the course grade
