

Two-Dimensional Imaging

Lectures: MW 9:30-10:45
Mitchell Earth Sciences 350/372

Professor: Howard Zebker
Office: Packard 334 or Mitchell 305
Telephone: 723-8067
email: zebker@stanford.edu
Office Hours: Generally here from 8-4

Teaching Roger Michaelides

Assistant: Office hours Monday PM, but available other times

Textbook info: (Recommended)

Bracewell, R.N., Fourier Analysis and Imaging, Kluwer, New York, 2003.

Prerequisites:

EE261, or equivalent familiarity with Fourier transforms. Programming experience, at least at the Matlab level, will be helpful for the homework. Some familiarity with linear systems and signal processing will also help.
