Questions, Comments, Thoughts?

Axess Course Evaluations

Axess is now open for students to complete course evaluations. Students may complete the evaluations from March 8 through March 22 at 8 a.m.

Please take time in class to encourage the students in your courses to complete the evaluations. Telling them that you value their opinions about the course is probably the most effective means to insure that there is a high response rate.

Students who complete all of their evaluations will see their grades as soon as they have been submitted by the faculty. Students who do not complete all of their evaluations will not be able to see their grades in Axess until April 6.

All lecture and seminar courses that have an enrollment of at least three students are subject to evaluation in the Schools of Humanities and Sciences, Engineering, Earth Sciences, Education, Medicine and MLA program. Discussion sections also use the course evaluation system in Axess except for the School of Engineering. Graduate School of Business and Law School have separate evaluation systems.

If you have any questions regarding course evaluations in Axess, please refer to our web site at:
