# Mid-term Report Comments

- My comments and suggestions were mainly focused on readability, grammar, sentence structure, report organization, and formatting.
- Consider the mid-term report as practice or a prototype for your final report. I'm interested in seeing your improvement.
- Project presentations and report writing are very important activities / skills that you will be using professionally.
- Practice promotes excellence.
- Review my mark-ups and make an honest judgment on which comments and suggestions could be helpful.

# Continuing Your Project

- Who has enrolled for ME113 next quarter?
- There is a possibility of continuing your project in ME113.
- Forming a team of four would be advantageous.
- Professor Drew Nelson makes the final decision.
  
- There will probably be assistive technology projects pursued in ME113 – so tell your friends who have already enrolled.
  
- Current enrollment has maxed out.
