

Lab Exercise 1

LING 233B

January 22, 2002

DUE: February 5, 2002
VALUE: 10% of final grade

1. In your semantic lexicon (`~/glue/semlex.pl`), add an entry for transitive verbs, e.g. *see*.
 - At this point, you should be able to get semantics for “David saw Chris”
2. Add an entry for sentential complement verbs, e.g. *think*.
 - At this point, you should be able to get semantics for “David thought that Fred saw Chris”
3. Add an entry for dative verbs, e.g. *introduce*.
 - At this point, you should be able to get semantics for “David introduced Fred to Chris”
(assume that *to* makes no semantic contribution)
