Stats 50 Homework #1

Grading Rubric

Criterion	Missing	Needs improvement	Good	Exceeds expectation
Connection of individual performance to team success. Did your resulting statistic have units of wins or points added by each player?				
Sufficiency of detail in proposal. Could I implement the proposed rating method using the details provided?				
Description of necessary data. Did you describe either (a) where the data are publicly available, (b) that the data exist privately or (c) how to gather the data?				
Recognition of limitations. Did you acknowledge how your proposal might fail to isolate individual performance or fail to account for some aspects of performance?				
Comparison with publicly available statistical ratings. Did you review previous work and report where your proposal fits in with the public standard?				
Spelling, grammar and style. Did you communicate your proposal well? After all, I want you to develop communication skills in this class.
