

Stats 50 Homework #4

Grading Rubric

Criterion	Missing	Needs improvement	Good	Exceeds expectation
Rankings Did you successfully compute and report offensive and defensive player rankings using the Rasch model?				
Modeling Did you analyze the regression estimates in the fitted Rasch model and suggest other variables to include?				
Visualization Did you select and present an appropriate figure to communicate some aspect of your results?				
Discussion Did your discussion and interpretation of the results provide insight on the players analyzed or variables used?				
Presentation How well did you present and communicate your results (e.g. is your writing professional prose, not a list of results)?
