

## Stanford University Hepatitis B Vaccination Declaration

A safe and effective vaccine is available for protection from Hepatitis B. While Stanford University strongly encourages employees to be vaccinated, accepting vaccination is not a condition of employment. This vaccine is available at no cost to the employee. Immunization requires three injections over a six-month period. Post-vaccination serological testing to ensure that protective antibodies to hepatitis B have developed is also provided at no cost following completion of the vaccination series. Hepatitis B vaccination is made available after the employee has received required training (Bloodborne Pathogens) and within 10 working days of initial assignment to employees who have occupational exposure [per 8CCR5193 (f) (2) (A)].

Please check the appropriate box:

- I have already received the Hepatitis B vaccine.  
Approximate date of vaccine \_\_\_\_\_  
I received the vaccine at \_\_\_\_\_
- I wish to receive the Hepatitis B vaccine.
- I do not wish to receive the Hepatitis B vaccine at this time.

If you wish to **decline** the Hepatitis B vaccine at this time, please read and sign the statement below.

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring hepatitis B virus (HBV) infection. I have been given this opportunity to be vaccinated with hepatitis B vaccine at no charge to myself. However, I decline the hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with hepatitis B vaccine, I can receive the vaccination series at no charge to me.

Submit the completed form to your supervisor, who will either file the form (if vaccination is declined) or make arrangements with the medical provider (364.1565) for vaccination (if accepted). If you are part of the School of Medicine, contact David Silberman at 3.6336 for vaccination arrangements.

If you have any questions, please contact the Biosafety Manager at 725.1473.
