

# Process Inventory Screen

The screenshot displays the chemtracker web application in a Netscape browser window. The interface includes a navigation menu with 'home', 'reference', 'inventory', 'reporting', and 'tools'. The 'inventory' section is active, showing search criteria: InvID: 623823, GDN: 13, StorGrp: E, ModBy: burnes, and ModDate: 01/07/2001. The 'All Matching Inventory' list on the left contains various chemical entries, with 'Mixture of Nitric acid (9)' selected. Below this list are icons for 'INVENTORY REPORTS' and 'PROCESS INVENTORY', with a red arrow pointing to the latter. The 'Selected Inventory Detail' section on the right shows fields for Chemical Owner (Nguyen, Minh), Department (Environmental Health & Safety), Building (ESF - BUILDING A), Room (A01), Manufacturer (UNKNOWN), Product Number, Chemical Name (Mixture of Nitric acid (90%) and Hydrofluoric acid (10%)), Physical State (at 25°C) (L), Amount per Container (500), and Unit (MG). The browser's address bar shows the URL: http://www.chemtracker.com/servlet/inmgr\_stanford.main?action=inv\_query&lu\_invid=&lu\_prinv=Nguyen%2C%20Minh&lu\_dpmt=&lu\_b...
