

# A UNIQUE STANFORD CLASS & TRAINING PROGRAM

BIOLOGY 96 A,B – 4 UNITS, WIN, SPR. THURSDAY 1:30-5:00

Multidisciplinary ecology/environmental education class with hands on experience and exposure to field research. Class includes botany, plant/animal interactions, ecology, archaeology, geology, land management, and active research projects presented by experts and staff. Two quarter class prepares students, both from Stanford and the community, to join the Jasper Ridge community. In following years, students are expected to contribute to JRBP. Participation ranges from working with research projects, to outreach programs, educational tours and continuing education classes that are available to members of the JRBP community  
Applications available online at: <http://jrpb.stanford.edu/docentprogram.php>

For more information contact Cindy Wilber, JRBP Education Coordinator

Faculty Sponsor: [Rodolfo Dirzo](#)
