

Attention Undergraduate Students

Two (2) Paid Internship Opportunities at Environmental Defense

\$2,600 for each 2-Month Internship - Summer 2006

Environmental Defense (www.environmentaldefense.org) was founded in 1967 by a group of scientists concerned about the effects of DDT on humans, wildlife, and the environment. DDT use was eliminated in the United States as a result of our success in demonstrating its effects and advocating for its removal, one of the classic achievements of the environmental movement. Other notable victories include developing market-based systems to cut pollution, convincing corporations of the economic benefits of environmental business practices, and helping private landowners restore more than 2 million acres of habitat for endangered species. Environmental Defense's accomplishments have been based on the combined efforts of scientists, economists, and attorneys working for practical, economically sustainable solutions to environmental problems. With offices in New York, Washington, DC, North Carolina, Texas, Colorado, Massachusetts, and in Oakland and Los Angeles, California, Environmental Defense has a large and diverse staff of Ph.D. scientists and economists. With the support of over 400,000 members, we focus our efforts in four broad program areas: Oceans, Ecosystems, Climate, and Environmental Health.

The Lorry I. Lokey Stanford University / Environmental Defense Internships support the work of two current undergrad students or recent graduates of Stanford University. The internships offer a unique opportunity to work directly with experts in science, law, economics, computer modeling, public education, and other disciplines. The position is made possible through an endowed fund established by Stanford alumnus Lorry Lokey '49.

Available Internships

- Estimating Trends in CO² Emissions (Washington, DC)
- Economic valuation of risks related to anthropogenic interference with the climate (Washington, DC)
- Corporate Partnerships (Boston, MA)

Students are responsible for their own travel expenses to internship sites.

TO APPLY: Students can request a complete set of application materials from Jaime Siembieda at jsiembieda@environmentaldefense.org or (510) 658-8008. Completed applications should be mailed to Jaime Siembieda at Environmental Defense, 5655 College Avenue, Suite 304, Oakland, CA 94618.

Completed applications are due Friday, March 24, 2006.

Students will be notified the first week of April 2006.

*Environmental Defense is an Equal Opportunity Employer.
Women, minorities, and the physically challenged are encouraged to apply.*
