

**Course of Study Add/Drop Petition**

To be used by students that have already declared Human Biology and wish to either add or delete a course in their Area of Concentration (A/C) or Foundation (F). **Do NOT make changes to your original Course of Study declaration form.** If more than one course in you're A/C has changed from the time you declared, you must rewrite that portion of your proposal and review changes with a Student Advisor. If changes are made, be sure to meet with your Faculty Advisor and have him/her sign this petition when they sign for your Junior or Senior year meeting (on Course of Study sheet), noting the changes.
