

## Physics Tutoring Center Autumn Quarter, 2009 Schedule

The **Physics Tutoring Center** offers drop-in tutoring for students in all introductory physics courses. It is staffed by TA's from the 20, 40 and 60 series physics courses. Although a TA will be more familiar with the material from his/her primary course, students from any of the courses may attend any of the times below.

Location: Room S17, subbasement of the [Physics and Astrophysics building](#) (map below)

## Location of Physics Discussion Section Room, Intro Labs, Physics Tutoring Center

The Discussion Section room, Intro Teaching Labs and the Physics Tutoring Center are located in the new Physics and Astrophysics Building, next to the Varian Physics Building. These facilities are located in the subbasement of this building (i.e., the floor at the lowest level), at the end of the building nearest the Quad. It is recommended that you enter via the stairwell located at the building entrance indicated on the map below. After 5 pm, the building will be locked and this will be the only door that can be opened by your SU ID card.

The Physics Tutoring Center is Room S-17. The Discussion Section room is S-14 and is accessed through the Tutoring Center. The lab rooms are S08, S12 and S16, depending on the course.
