

Stanford University's Astronomy Program presents the
25th Annual Bunyan Lecture

Free and Open to the Public

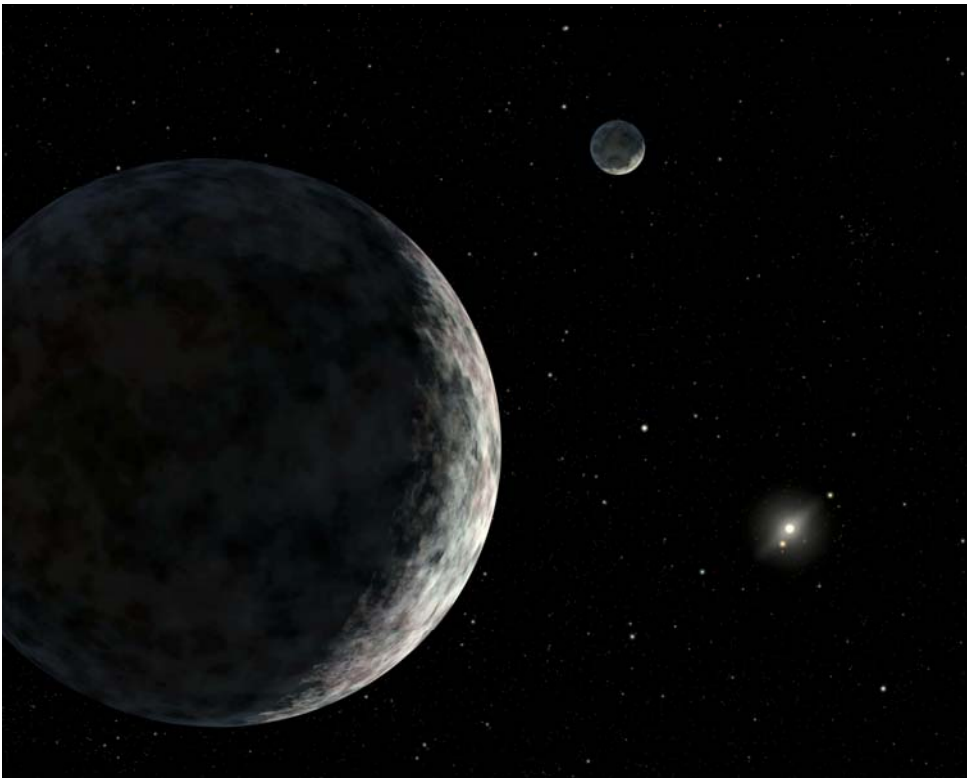

7:30pm Wednesday, October 25, 2006

Kresge Auditorium

Dr. Michael Brown
Caltech, Pasadena

***"Pluto, Eris and the Dwarf
Planets of the Solar System"***

What is a
Planet
anyway?

Artists concept of the view from Eris with [Dysnomia](#) in the background, looking back towards the distant sun.
