

# THE WINNERS

## of Stanford's 2010 Conservation Cup!

### Greatest Reduction

For achieving a reduction greater than 20%, the special award for **Hammarskjold** and **717 Dolores** is a House field trip to the California Academy of Sciences. Every residence achieving a reduction greater than 10% receives a reusable water bottle.

Congratulations to the following winners for the greatest combined reduction from 2009:

- |                             |      |
|-----------------------------|------|
| 1 <b>Hammarskjold</b> ..... | -26% |
| 2 <b>717 Dolores</b> .....  | -20% |
| 3 Marx .....                | -16% |
| 4 Haus Mitt .....           | -15% |
| 5 Jerry .....               | -15% |
| 6 Slav Dom .....            | -15% |
| 7 Columbae .....            | -14% |
| 8 680 Lomita .....          | -12% |

### The Green Living Council

To learn more about how to live sustainably at Stanford, contact your residence's Green Living Coordinator. For more information about getting involved in the Green Living Council, visit: <http://sustainability.stanford.edu/greenlivingcouncil>.

For more information, visit:  
<http://livinggreen.stanford.edu>

### Most Efficient

The more efficient your residence is to begin with, the harder it is to reduce your electricity and water use. That's why we are recognizing the following two residences with the annual Conservation Cup Plaque to reward them for their ongoing efforts to conserve natural resources:

Average Efficiency  
\$/student/day amount ..... \$1.07

Most Efficient House (\$/student/day)  
**Marx** ..... \$0.53

Most Efficient Residence (\$/student/day)  
**Schiff** ..... \$0.57

**Thanks to all students for participating and helping conserve our resources!**
