TENURE / TENURE-TRACK FACULTY POSITION in BIOMEDICAL ENGINEERING DESIGN / INSTRUMENTATION VANDERBILT UNIVERSITY

The Department of Biomedical Engineering at Vanderbilt University (VUBME) invites applications for a rank-open, tenure/tenure-track appointment faculty position in the area of biomedical engineering design. This initiative is part of exciting new opportunities at VUBME, which include a major expansion of its faculty and state-of-the-art facilities. Interviews for this position will begin 01 November 2009. Applications will be accepted until the position is filled.

We seek to recruit an outstanding faculty member with a primary focus on reinventing and teaching biomedical engineering design. Candidates with demonstrated expertise in biomedical design/instrumentation are particularly encouraged to apply, especially those with research applications in neural engineering, therapeutic engineering, and personalized medicine. VUBME research has core strengths in the areas of biophotonics, nanobiotechnology / biomaterials, clinical translation, and image-based technologies. Our growth will continue to build on strong collaborative research with Vanderbilt medical, engineering and science faculty. Applicants should have a Ph.D. degree in an engineering or scientific discipline appropriate for a faculty position in BME.

Applications should be submitted electronically and must include: a cover letter with names and contact information of at least three references, a CV, a statement of research and a statement of teaching philosophy. Vanderbilt University is an affirmative action/equal opportunity employer committed to increasing the cultural and intellectual diversity of its faculty.
