

## Phones

### Mobile Phones:

What mobile phone should a Canadian at Stanford get?

As of Oct. 2002, the best reception on campus is through AT&T, with Sprint second and Verizon next. Cingular and T-Mobile seem to be poor throughout campus and Palo Alto generally. Cingular and T-Mobile also do not have good calling plans to Canada.

In terms of getting a phone to use in Canada as well, the consensus is that Verizon has the best plan: \$10 extra a month to roam and call any where in Canada, with good coverage.

### Long Distance:

On campus, you can only use Stanford's service or buy a pre-paid calling card. Among the latter, BigZoo.com offers good domestic and international rates, which they lower regularly. Calling cards bought through future hi-tech (650-988-9903, ask for Ms. Liang) were also recommended.
