Preface

The Ninth West Coast Conference on Formal Linguistics (WCCFL 9) was hosted by the Department of Linguistics, Stanford University, and was held from March 2–4, 1990. Forty-three papers were presented at the conference on topics from all areas of formal linguistics, of which forty appear in this volume. Papers not included are those by Robert Chametzky, Itziar Laka, and Greg Lamontagne.

The organizing committee consisted of Jen Cole, Aaron Halpern, Gillian Ramchand, Whitney Tabor, Linda Uyechi, and me. The volume of papers was put together by the committee, with the assistance of Liz Bratt, Shusuke Iida and Patrick O'Neill. On behalf of the department, I'd like to thank all of these people for the time they gave to making the conference a success and the volume a reality.

The conference was supported in part by grants from the Dean of Graduate Studies and the Dean of Humanities at Stanford University, which provided the necessary funds to make it possible for us to host WCCFL.
