Study #: [USPEW2006-MEDIA](#) 

Methodology: Survey by: Pew Research Center for the People & the Press
Conducted by Princeton Survey Research Associates International, April 27-May 22, 2006, and based on telephone interviews with a National adult sample of 3,204.

Variables: 371

Topical Coverage: George W. Bush job performance (2); media consumption (6); following of news stories (5); reading of newspaper (13); viewing of news programs on television (6); listening to the radio (2); reading of news online (14); reading of magazines/books (2); participation in activities (5); enjoyment of reading (1); frequency of watching/listening to television /radio programs (26); frequency of reading publications (15); interest in keeping up with the news (2); availability of information (1); online access to e-mail (4); current events (3); following of different types of news (17); quality of daily newspaper (2); cable/satellite television (3); agree/disagree with statement (5); view of the news media (1); preferred level of objectivity of sources of political news (1); sources of various news topics (12); reasons for reading newspapers (4); reasons for listening to the radio news (4); reasons for watching television news (4); reasons for reading news on the internet (4); ownership of personal computer (1); internet access (1); ownership of electronic device (6); reception of news on a cell phone/ other electronic device (4); watching/listening to news podcasts on digital music players (2); digital recording of news programs on television (1); vote in 2004 Presidential election (2); voting habits (1); importance of keeping up with news for job (1).

Study Title: **PSRAI /NCCJ Poll # 2005-NCCJ: Intergroup Relations Survey**

Study #: [USPSRA2005-NCCJ](#) 

Methodology: Survey by: National Conference for Community and Justice
Conducted by Princeton Survey Research Associates International, January 13-March 30, 2005, and based on telephone interviews with a National adult sample of 2,558.

Variables: 267

Topical Coverage: Priorities for the government (10); satisfaction with aspects of life (7); feelings about groups in the news (16); discrimination against groups (17); influence of groups on society (14); opportunities for equal treatment for groups (24); relations between groups (20); racial/ religious/ethnic tension in places (5); personal contact with different groups (49); unfair treatment in places because of ethnicity (12); singling out of Arab Americans/Muslims/Middle Eastern immigrants (1); racial profiling (2); immigration (6); protection of gays/lesbians from job discrimination (1); civil unions/same-sex marriages (1).

Study Title: Kaiser/Agency for Healthcare Research and Quality Poll # 2006-HNI061: August 2006 Kaiser Health Poll Report--Patient Safety and Quality Information

Study #: [USPSRA2006-HNI061](#) 

Methodology: Survey by: Henry J. Kaiser Family Foundation & Agency for Healthcare Research and Quality Conducted by Princeton Survey Research Associates International, August 3-8, 2006, and based on telephone interviews with a National adult sample of 1,216.

Variables: 94

Topical Coverage: Most important problem for the government to address (2); most important problem in health/health care for the government to address (2); satisfaction with the quality of health care (2); following of news stories (7); President Bush's veto of bill for federal funding of embryonic stem cell research (1); health insurance (1); concern about issues (13); activities respondent has done (8); viewing of information comparing doctors/hospitals/health care plans (4); use of information comparing quality of doctors/hospitals/health care plans (3); medical care (12).

Study Title: Kaiser Poll # 2006-HNI062: October 2006 Health Poll Report--Health Care and the Elections

Study #: [USPSRA2006-HNI062](#) 

Methodology: Survey by: Henry J. Kaiser Family Foundation Conducted by Princeton Survey Research Associates International, October 5-10, 2006, and based on telephone interviews with a National adult sample of 1,200.

Variables: 87

Topical Coverage: Most important issues in vote for Congress (2); voting in 2006 Congressional elections (2); Congressional attention to issues (2); economy (11); importance of health care issues in vote for Congress (9); following of news stories (9); health insurance coverage (1); concern about issues (13); intention to vote in 2006 Congressional elections (1).

Study Title: Time Magazine Poll # 2007-4105: 2008 Presidential Elections/Candidates

Study #: [USSRBI2007-4105](#) 

Methodology: Survey by: Time Magazine Conducted by Schulman, Ronca, & Bucuvalas, Inc., April 5-9, 2007, and based on telephone interviews with a National adult sample of 1,281.

Variables: 129

Topical Coverage: George W. Bush job performance (1); choices for 2008 Republican Presidential candidate nominee (2); choice for 2008 Democratic Presidential candidate nominee (2); satisfaction with party candidates for nomination (1); 2008 Presidential election (7); knowledge about Presidential candidates (14); support for Presidential candidates (14); support of different types of candidates (4); characteristics of Mitt Romney (5); vote in 2004 Presidential election (2).

United States -- Other samples

Study Title: ABC News/Good Housekeeping Poll # 2006-1006: Mother's Day Poll

Study #: [USABC2006-1006](#) 

Methodology: Conducted by ABC News/Good Housekeeping, January 30-February 2, 2006, and based on telephone interviews with 585 national adult mothers of children under age 18 at home.

Variables: 65
