

Errata for Composition and flux of groundwater from a California beach aquifer: Implications for nutrient supply to the surf zone

Alexandria Boehm^{1#}, Adina Paytan², Gregory G. Shellenbarger³, Kristen A. Davis¹

1. Department of Civil and Environmental Engineering, Environmental Water Studies, Stanford University, Stanford, California 94305
2. Department of Geological and Environmental Sciences, Stanford University, Stanford, California 94305
3. SG Science, 401 13th Street, Sacramento, CA 95814

Due to a typesetting error, equation (7) of Boehm et al. (2006) was printed incorrectly. The correct version of the equation is:

$$D_t = \frac{n_e A}{\kappa T_t} \exp(-\alpha) [\cos(\alpha) - \sin(\alpha)] + \frac{2^{1/2} n_e A^2}{s_b T_t} \exp(-2^{1/2} \alpha) \cos(2^{1/2} \alpha) + \frac{n_e A^2}{s_b T_t}$$
