

The Media Construction of a Group Imaginary. Due January 26

This is likely to take between 1 and 2 pages.

There are all kinds of genres in the written media that create a group imaginary. Studying one publication, choose a genre that creates a gendered and/or sexualized group imaginary. Provide us with a copy, and write a description of the nature of the community it is constructing, and what means it uses to do this construction.

Once again - Caution – don't pick something painfully obvious.
