

James Holland Jones

Department of Anthropology
450 Serra Mall, Building 50
Stanford, CA 94305-2034
USA

Office Phone: (650) 723-4824
Fax: (650) 725-0605
Email: jhj1@stanford.edu
url: <http://www.stanford.edu/~jhj1>

1 Education

Ph.D., Anthropology, Harvard University, Cambridge, Massachusetts. 2000.

A.M., Anthropology, Harvard University, Cambridge, Massachusetts. 1994.

B.A., Anthropology and Biology, New College, Sarasota, Florida. 1991.

2 Research interests

Anthropology Human ecology, demography and life history theory, social epidemiology, ecology of infectious disease, nutrition and health.

Demography & Epidemiology Biodemography, infectious disease epidemiology, social networks, nonhuman primate demography, historical demography, demographic microsimulation, kinship.

Quantitative Methods Statistical inference, network analysis, computer simulation, Bayesian statistics, survival analysis, R, Mathematica, MATLAB.

3 Professional Positions

Current Position

2007- Assistant Professor, Department of Anthropology, Stanford University, Stanford, California.

Other Affiliations

2007- Fellow, Woods Institute for the Environment, Stanford University.

2007- Faculty Affiliate of the Stanford Center on Longevity, Stanford University.

2004- Faculty Affiliate, Center for Human and Primate Reproductive Ecology, Yale University.

2003- Faculty Associate, Center for Economics and Demography of Aging, University of California, Berkeley.

Past Positions

2003-2007 Assistant Professor, Department of Anthropological Sciences, Stanford University, Stanford, California.

2002-2003 Research Scientist, Center for Studies in Demography and Ecology, University of Washington.

2001-2003 Post-Doctoral Affiliate, Center for Statistics and the Social Sciences, University of Washington.

2001-2002 Senior Fellow, Allergy and Infectious Diseases, University of Washington Medical School, Seattle, Washington.

2001-2002 Research Fellow, Center for Studies in Demography and Ecology, University of Washington.

2000-2001 Lecturer, Department of Anthropology, Harvard University.

1998-2001 Assistant Senior Tutor, Fellowships. Mather House, Harvard College.

1997-2001 Resident Tutor in Biology and Anthropology. Mather House, Harvard College.

1992-1999 Teaching Fellow, Department of Anthropology, Harvard University.

1995-1996 Fulbright Scholar, Indonesian Institute of Science (LIPI) and Subdirectorate of Conservation and Park Management, Department of Forestry (PHPA), Indonesia.

1994 Research Assistant, Department of Animal Science, Corvallis, Oregon.

1992 Archaeologist, Archaeological Consultants Inc., Sarasota, Florida.

1991-1992 Archaeologist, Ecology and Environment Inc., Tallahassee, Florida.

1990 Scientific Research Intern, Division of Ecological Monitoring, Natural Resources Department, Sarasota, Florida.

4 Publications

Peer-Reviewed

1. Keele*, B.F., J. H. Jones*, K. A. Terio*, J. D. Estes*, R. S. Rudicell*, M. L. Wilson*, Y. Li, G. H. Learn, T. M. Beasley, J. Schumacher-Stankey, E. Wroblewski, A. Mosser, J. Raphael, S. Kamenya, E. V. Lonsdorf, J. G. Else, G. Silvestri, J. Goodall, P. M. Sharp, G. M. Shaw, A. E. Pusey and B. H. Hahn. (2009) Increased Mortality and AIDS-like Immunopathology in Wild Chimpanzees Infected with SIVcpz, *Nature*, forthcoming. *=equal contribution.

2. Jones, J.H. (2009) The force of selection on the human life cycle, *Evolution and Human Behavior*, in press (doi:10.1016/j.evolhumbehav.2009.01.005).
3. Jones, J.H. and B.D. Ferguson. (2009) Demographic and social predictors of intimate partner violence in Colombia: A dyadic power perspective, *Human Nature*, 20(2): 184-203. (doi: 10.1007/s12110-009-9064-6)
4. Bliege Bird, R., D.W. Bird, B.F. Coddling, C.H. Parker and J.H. Jones. (2008) Anthropogenic fire mosaics, biodiversity and Australian Aboriginal foraging strategies: A test of the “Fire Stick Farming” hypothesis, *Proceedings of the National Academy of Sciences, USA*, 105(39): 14796-14801. (doi: 10.1073/pnas.0804757105)
5. Hacker, J.D., L.R. Hilde and J.H. Jones. (2008) The Impact of the American Civil War on Southern Marriage Patterns, *Journal of Southern History*, forthcoming.
6. Emery Thompson, M., J.H. Jones, A.E. Pusey, S. Brewer-Marsden, J. Goodall, D. Marsden, T. Matsuzawa, T. Nishida, V. Reynolds, Y. Sugiyama, and R.W. Wrangham. (2007) Aging and fertility in wild chimpanzees: implications for evolution of menopause. *Current Biology*, 17(24): 1-7. (doi:10.1016/j.cub.2007.11.033)

Software

1. **demogR**: Software for the Construction and Analysis of Age-Structured Demographic Models in R, available on <http://cran.r-project.org>.

Technical Reports

1. Marshall, A.J., J.H. Jones, and R.W. Wrangham. (2000) The plight of the apes: The status of global ape populations. A briefing prepared for H.R. 2340: The Great Ape Conservation Act.
2. Jones, J.H. (1996) Orangutan Foraging ecology in the Gunung Palung National Park, Kalimantan Barat. Technical Report prepared for the Indonesian Institute of Science (LIPI).

5 Invited Talks

1. Jones, J.H. Anthropological Perspectives on Networks and Epidemics: Stopping Rules, Chimpanzee Sex, and Betweenness Variance. Center for Infectious Disease Dynamics, Pennsylvania State University. 28 April 2009.

2. Bird, R.B. and J.H. Jones. Evolution and human behavior: perspectives from human behavioral ecology. Wiley-Liss Invited Symposium. American Association of Physical Anthropologists, Chicago, IL. 2 April 2009.
3. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Morrison Institute for Population and Resource Studies, Stanford University, 18 February 2009.
4. Social interactions and infectious disease epidemiology. NAS/CNRS Frontiers of Science Symposium, Roscoff, France. 20-22 November 2008.
5. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Population Studies Center. University of Michigan. 13 October 2008.
6. Marginal valuation of fertility and risk-aversion in women's reproduction on the Utah frontier, 1849-1929. Department of Anthropology, UC Santa Cruz, 5 November 2008.
7. The marginal valuation of fertility. IUSSP Seminar on Trade-Offs in Female Life Histories. University of Bristol, Bristol UK (with R. Bliege Bird). 22 July 2008.
8. Finite mixture models for biodemographic inference. California Center for Population Research, University of California, Los Angeles. 24 October 2007.
9. Measuring heterogeneity in mortality using finite mixture models. Morrison Institute for Population and Resource Studies, Stanford University, November 2007.
10. Rank, not age, predicts the length of chimpanzee birth intervals. California Biodemography Program Project Conference on Sociality and Biodemography, Ponta Delgada, Açores. 17-20 June 2007.
11. Diabetes and Tuberculosis: The Demography of Interacting Epidemics. Demography and Infectious Disease: Integrating Multiple Levels of Biological and Social Information. Applera Foundation Lecture Series, Stanford CA. 23 February 2007.
12. Epidemic thresholds for heterogeneous two-sex epidemic models. Institute for Mathematics and the Behavioral Sciences, University of California, Irvine. 1 February 2007.
13. The evolution of biparental care in variable environments. Museum of Vertebrate Zoology, University of California, Berkeley. 22 November 2006.
14. Likelihood-based inference for sexual networks. Santa Fe Institute. 26 October 2006.
15. Excess male death and the marriage squeeze in Colombia: Implications for migration and the male life course. IUSSP Seminar on the Male Life Course, Marburg, Germany. 12 October 2006.
16. Dynamical consequences of interacting diabetes and tuberculosis epidemics. Stanford Center for Health Policy Seminar Series. 8 November 2006.

17. Stochastic models of sexual partnership distributions and implications for elimination and control of STIs. Quantitative Methods in the Social Sciences Colloquium Series, University of California, Santa Barbara. 25 January 2006.
18. Frailty models of chimpanzee fertility. Center for Statistics & the Social Sciences Seminar Series, University of Washington. 17 January 2006.
19. The demography of the Gombe chimpanzees: An analysis of 42 years of vital event data. Biological Anthropology Colloquium, Harvard University. 7 October 2005.
20. The demography of the Gombe chimpanzees: An analysis of 42 years of vital-event data. Bay Area Consortium on Population Lecture Series, University of California, Berkeley. 1 September 2005.
21. Health disparities and epidemic thresholds: Implications for defense against bioterrorism and emerging infections. Notestein Lecture, Office of Population Research, Princeton University. 15 February 2005.
22. Likelihood-based inference for network degree distributions. Department of Statistics Winter Colloquium, Stanford University. 8 February 2005.
23. Probability of orphanhood under a generalized AIDS epidemic. Morrison Center for Population and Resource Studies Winter Colloquium Series, Stanford University. 26 January 2005.
24. Landscape persistence of a sexually-transmitted infection in a metapopulation linked by male dispersal. Special session: Parasites and host social organization. Ecological Society of America, Portland, Oregon. August 2004.
25. Likelihood-based inference for network degree distribution. Special session: Statistical inference for social networks, Biometric Society, Western North America Region Meeting, Albuquerque, NM. 28 June 2004.
26. Early life events and life history theory. Plenary Session: The Fetal Origins of Developmental Plasticity, Human Biology Association Annual Meeting, Tampa, Florida. 15 April 2004.
27. Pair-bonding and the human life history problem. Department of Anthropological Sciences Colloquium, Stanford. 10 December 2003.
28. Cultural transmission in heterogeneous populations: Sexually transmitted diseases as biomarkers of cultural biases? *Toward a Scientific Concept of Culture* Conference, Department of Anthropological Sciences, Stanford University. 23 January 2003, Stanford, California.
29. Bayesian statistical methods and evolutionary anthropology. Biological Anthropology Seminar Series, University of Washington. 4 December 2002.
30. Epidemic thresholds exist in human sexual contact networks Center for Statistics and the Social Sciences, University of Washington. 9 October 2002.

31. AIDS orphans and “grandorphans” in Sub-Saharan Africa: The Impact of Correlated Mortality on Households and Kinship Structure (with Martina Morris). Department of Demography, University of California, Berkeley. 13 March 2002.
32. AIDS orphans and “grandorphans” in Sub-Saharan Africa: The Impact of Correlated Mortality on Households and Kinship Structure. Center for Studies in Demography & Ecology Seminar Series, University of Washington. 8 March 2002.
33. Modeling the Differential Prevalence of Bacterial STDs. Department of Anthropological Sciences, Stanford University. 1 February 2002.
34. Rethinking strategies for estimating demographic schedules from incomplete data. Center for Statistics & the Social Sciences Seminar Series, University of Washington. 7 November 2001.
35. Matrix Population Models and the Evolution of the Human Life Cycle. Department of Ecology, Evolution & Behavior, University of Minnesota, St. Paul, Minnesota 3 March 2000.
36. Population dynamics and extinction in structured populations: Applications to the Middle Paleolithic. Stone Age Laboratory, Harvard University, 2000.
37. Cooking and the Evolution of Human Sexual Bonding. Department of Anthropology Colloquium, Yale University, New Haven Connecticut, 1999.
38. Population Models for Orangutan Conservation. Department of Anthropology, New York University, New York, New York, 1999.
39. Population Models for Orangutan Conservation. Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1999.
40. Production Models of Primate Life Histories. Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1997.
41. Ultimately, Why Do Primates Grow So Slowly? Department of Anthropology Colloquia Series, Harvard University, Cambridge, Massachusetts, 1995.
42. Phylogenetic Systematics and Ruminant Evolution. Department of Animal Science Colloquia Series, Oregon State University, Corvallis, Oregon, 1994.

6 Fellowships and Honors

2009 Stanford-France Cooperation Grant, Stanford University.

2007 Hellman Faculty Scholar, Stanford University.

2007 Fellow, Woods Institute for the Environment, Stanford University

2005 Career Development Award (K01), National Institute for Child Health and Human Development

- 2001 National Research Service Award, National Institute for Allergy and Infectious Diseases
- 2000 New Investigator Prize, Human Behavior and Evolution Society Annual Meeting, Amherst, Massachusetts
- 2000 Edmund J. Curley Scholarship
- 2000 Derek Bok Center for Teaching Award (Also 1993, 1995, 1999)
- 1999 Harvey E. Clifford Scholarship
- 1998 Cora DuBois Charitable Trust Fellowship
- 1995-96 Fulbright Fellowship to Indonesia
- 1992-94 Ann Getty Predoctoral Fellowship, Harvard University
- 1990 Florida honors waiver

7 Research Grants

Principal Investigator

- 2005-2010 “Demographic Change and Dependent Social Structures,” NICHD 1K01HD051494-01. Total Direct Costs: \$600,000 over 5 years.
- 2009 “Doctoral Dissertation Research: Motives for Consuming, Sharing and Trading Wildlife in Urban Cameroon,” (Shannon Randolph, Co-PI) NSF BCS-0922045. Total Direct Costs: \$15,000.
- 2008 “Doctoral Dissertation Research: Life History Perspectives on Violent Conflict in Colombia,” (Brodie Ferguson, Co-PI) NSF BCS-0753741. Total Direct Costs: \$13,610.
- 2008 “Doctoral Dissertation Research: Social Networks and Social Capital: New Techniques for Studying Marginalized Populations at Risk,” (Yeon Jung Yu, Co-PI) NSF BCS-0753231. Total Direct Costs: \$14,280.
- 2007-2009 “Forest Conversion and the Changing Epidemiological Environment in Southeast Asia,” Stanford Woods Institute for the Environment Environmental Ventures Program Grant. Total Direct Costs: \$150,000.
- 2007 Conference Grant: “The Demography of Infectious Disease,” Applera Corporation. Total Direct Costs: \$60,000.

Co-Principal Investigator

- 2009-2010 “Global Climate Change and Regional Conflict in the African Sahel,” Roz Naylor, PI. Freeman-Spogli Institute for International Studies Presidential Fund. Total Direct Costs: \$150,000 over 2 years.
- 2009-2010 “An interdisciplinary approach to understanding the role of anthropogenic fire in the desert grasslands of Australia,” Douglas W. Bird, PI. Stanford Woods Institute for the Environment Environmental Ventures Program Grant. Total Direct Costs: \$150,000.
- 2007-2009 “Workshops in Formal Demography and Biodemography,” Shripad Tuljapurkar, PI. NICHD 1R25HD055354. Total Direct Costs: \$300,000 (approximate) over 2 years.
- 2004-2006 “Workshops in Formal Demography,” Shripad Tuljapurkar, PI. NICHD 1R25HD04498. Total Direct Costs: \$320,000 over 2 years.
- 2005-2007 “Anthropogenic Burning as a Resource Management Strategy Among Australian Hunter-Gatherers,” Rebecca Bliege Bird and Douglas Bird, Co-PIs. Stanford University Office of Technology Licensing Research Incentive Grant. Total Direct Costs: approximately \$25,000 over two years.

Consultant

- 2008 “Molecular Epidemiology and Natural History of SIVcpz,” PI: Beatrice Hahn, pending NIAID.

Other Research Awards

- 2009 Stanford-France Cooperation Center Grant.
- 2004 Seed Grant for Exploratory Research, CEDA, UC Berkeley.
- 2004 Stanford Institute for International Studies, Hewlett Family Fund Grant
- 1998 Mellon dissertation completion award
- 1997 Mellon dissertation top-up award
- 1995 Mellon pre-dissertation award

8 Fieldwork

- 1995-1996 Gunung Palung National Park, West Kalimantan, Indonesia. Ecological energetics of male orangutans (*Pongo pygmaeus pygmaeus*).
- 1993 Caribbean Primate Research Center, Sabana Seca, Puerto Rico. Endocrine basis of alarm vocalizations in rhesus macaques (*Macaca mulatta*).
- 1991-1992 Central Louisiana and Mississippi. Tennessee gas pipeline archaeological survey.

1990 Sarasota County, Florida. Wetlands and estuary ecology.

9 Teaching

Courses

Graduate Research Methods; Life History Theory; Formal Demography; Social Epidemiology; Epidemic Modeling; Statistics; Evolutionary Theory

Undergraduate Human Population Biology; Environmental Change and Emerging Infectious Disease; Ecology, Evolution and Human Health; Evolution of Human Diet; Nutrition and Human Growth; Human Nature; Human Life Cycle

Students and Post-Docs Supervised

Post-Docs

Dan Salkeld (2008-)

Sadie Jane Ryan (2007-2009)

Ph.D. Students

Alejandro Feged, primary advisor (2007-)

Yeon Jung Yu, primary advisor (2006-)

Shannon Randolph, primary advisor (2005-)

Brodie D. Ferguson, primary advisor (2004-)

Katherine Grace (Geography, UC Santa Barbara), thesis committee member (2006-2008).
Current Position: Post-Doc, Max Planck Institute for Demography.

Raziel Davison (Biological Sciences), thesis committee member (2006-)

Cedric Puleston (Biological Sciences), thesis committee member (2005-2009)

Karim Al-Khafaji (Biological Sciences), thesis committee member (2005-2008)

Charles Roseman (Ph.D. 2005), thesis committee member (2003-2005). Current Position:
Assistant Professor, University of Illinois
