

Stanford National Forensic Institute Summer 2013

Term: Sum 2013

Welcome SNFI Summer 2013

[1]

SNFI Debaters and Policy students, welcome to the Stanford University Libraries. This page is designed to help you find some of the most important library resources for your research. **If you have questions, check first with your counselor or teacher.**

Here you will find information on using our library resources to search the catalog and the online reference sources. There is also a list of Stanford databases you can use for getting information on current controversies and government policies. You will also find information here about using our computers, making copies, printing and checking out books.

Public Computer kiosks are available for your use on the First Floor of Green East. The kiosks give you access to the catalog (Searchworks), and the Internet; however, they do not include word processing packages.

Printing, copying and scanning. There is a \$.10/page charge for printing. There are xerox machines near the loan desk; copies cost \$.13/page. To print from a library kiosk you must have a copy card. You can buy a copy card at the machine across from the Loan Desk for \$1, but that only gives you a card (no pages). To put value on it for copying or printing, you need to put in more money. The copy card machine takes bills up to \$20.

Scanning is free. There are public scanners in Green East attached to the public kiosk clusters that will copy and save to files (which can be emailed or saved on a flash drive). There is no cost for scanning.

Get Started

[5]

1. Use [Reference Sources](#) [6] to jumpstart your research, to get ideas, and more.
2. Find Books, Journal Titles and Media in [Stanford's Online Catalog - Searchworks](#). [7]
3. Find Articles in [Selected Databases](#). [8] *Note: Stanford subscribes to over [1000 Databases](#) [9] that index articles and books on various topics. Since there are so many databases we recommend a [select subset of databases](#) [8] which will give you access to articles in a wide variety of subject areas.*

Green Library Logistics

[10]

Public kiosks are available for your use on the First Floor of Green East. The kiosks give you access to the catalog (Searchworks), and the Internet; however, they do not include word processing packages. There is a \$.10/page charge for printing. To print from a library kiosk you must have a copy card. You can buy a copy card at the machine across from the Loan Desk for \$1, but that only gives you a card (no pages). To put value on it for copying, you need to put in more money. The copy card machine takes bills up to \$20.

Accessing and Checking out books: You will only be able to check out books from Green or our overflow libraries (SAL libraries). For books listed as being in Green Library, check [Green Library Shelving Locations online](#) [11]. There are also wallet-sized shelving location guides at the IC desk that you can take with you. The Searchworks catalog records have links to "map" the location of items in Green Library.

Sometimes the item location will be "SAL". These items may be paged to Green Library by clicking on the link to "Page for delivery".

To check out a book, take it to the Loan Desk in Green East and fill out a slip. Counselors with borrowing privileges will check the book out for you at the end of the day. Do not check out government documents. Please leave government documents on the tables set up for you in the West Basement so that all may use them.

Making Copies:

You will find photocopy machines throughout the building. On the first floor of Green East, there is one near the Current Periodicals, and 3 across from the Loan Desk.

- No copiers take change or bills. You must buy a copy card. *There are no change machines in the library, nor can you get change at the loan or information center desk.*
- You can buy a copy card at the machine across from the Loan Desk for \$1, but that only gives you a card (no copies). To put value on it for copying, you need to put in more money. The copy card machine takes bills up to \$20. The cost per xerox copy is \$.13/page
- Copy cards can also be used to print from the public kiosks.
- There are **public scanners** in Green East attached to the public kiosk clusters that will copy and save to files (which can be emailed or saved on a flash drive). There is no cost for scanning.
- You can scan and copy microfilm to your flash drive, or email to yourself using a web-based email account.
